

Patrick Angelo G. Cameguing

"I am a Full-Stack Web Developer specializing in C# and React; 2x AWS Certified"

Mobile No.: +639485719074

Email Address: hello@patrickcameguing.com

Davao City, Philippines

SKILLS

Primary Backend:	C#, .NET Core, .NET 6, .NET Framework, Web API, Entity Framework, LinQ, Razor, Unit Testing
Database:	MS SQL, MySQL, Amazon Aurora
Frontend:	JavaScript, React, TypeScript, redux, redux-toolkit, Material UI, Ionic, HTML, CSS, SCSS
Cloud Services:	AWS mainly in Lambda, SQS, SNS, API Gateway, S3, Amplify, AppSync, Event Bridge, EC2, Cognito
Container Services:	Docker, AWS ECS, AWS ECR, Fargate
Hands-on work experience with C#:	
	10 years
	React: 5 years
	AWS: 4 years

CERTIFICATES

AWS Certified Solutions Architect – Associate
AWS Certified Cloud Practitioner

Credly badge: [link](#)

EMPLOYMENT HISTORY

Software Developer

August 2021 to August 2023

Steelx Pty Ltd 2 years
Industry: Wholesale Building Materials (Software-as-a-Service)

- ✓ Work within a Scrum Team, and work on the programming, testing and maintenance of a business system that is built with a software stack of **C#, .NET 6, React.js and AWS Cloud**.
- ✓ Design, develop, and implement solutions leveraging various AWS services like EC2, S3, RDS, Lambda, Amplify, ECS, etc.
- ✓ One of my responsibilities includes migrating portions of an ASP.NET MVC application developed using .NET Framework to a modern React frontend while the server-side employs .NET 6, operating within an AWS Lambda microservice environment.
- ✓ Deploy React applications by containerizing them with Docker and optimizing container orchestration using AWS ECS for management and AWS ECR for storage and deployment of container images.
- ✓ Other projects include creating React applications with AWS Amplify. These apps communicate via AWS AppSync with GraphQL APIs, seamlessly integrating queries and data from an Aurora Serverless relational cloud database on the backend.
- ✓ Integrated GitHub repositories with AWS CodePipeline, triggering automated deployments upon code changes.
- ✓ Managed AWS CloudWatch to efficiently collect and analyze log data, enabling proactive troubleshooting within the system.
- ✓ Managed the creation and ongoing updates of database tables on AWS MS SQL to support evolving business needs.
- ✓ Transforms UI/UX designs created on Figma and user interface mockups into functional platforms.
- ✓ Managed agile software dev lifecycles in Jira - created, prioritized, & monitored tasks from requirements through release.
- ✓ Collaborate with technical support by offering insights, solutions, and technical expertise to bolster the team's ability in addressing software-related inquiries.

Full-Stack .NET Developer

February 2017 to February 2021

Dev Partners Software Solution | Philippines 4 years
Industry: IT-Enabled Services / BPO

- ✓ In my role I specialized in the design, development, and enhancement of an Insurance Quoting API. Leveraging my expertise in **.NET Core, C#, and React with TypeScript**, I played a pivotal role in the entire software development lifecycle.
- ✓ I was the first employee hired at a startup company. My primary role involved designing, developing, and testing the core revenue-generating software, starting from the Minimum Viable Product (MVP) and progressing to the final production-ready release.
- ✓ Employing additional tools such as JavaScript, Material UI, Redis, Azure DevOps for CI/CD, Microsoft SQL Server, Entity Framework Core, and ABCpdf for PDF creation.
- ✓ Works primarily with Amazon Web Services (AWS) as our cloud service provider.
- ✓ Actively involved in designing and implementing new product features as outlined by the Product Owner and take responsibility for coaching and mentoring junior team members.

Mid-Level .NET Developer

May 2016 to January 2017

Next BPO Solutions, Inc. | Davao City, Philippines
Industry: IT-Enabled Services / BPO

- ✓ Utilizing programming languages such as **ASP.NET MVC in C#**, and tools including jQuery, ASP.NET Web API, Microsoft SQL Server 2018, Vanilla JavaScript, Bootstrap, and Git Team Foundation Server.
- ✓ I serve as a dedicated resource for Hewlett Packard Enterprise in Manila. My responsibilities encompass troubleshooting, debugging, and upgrading existing software. Additionally, I maintain close collaborations with other virtual developers to ensure the validation of technical designs and effective implementation.

Intermediate .NET Developer

September 2014 to February 2016

HP Outsourcing Inc. | Davao City, Philippines
Industry: IT-Enabled Services / BPO

- ✓ Utilizing programming languages such **ASP.NET MVC in C#** and make use of a range of tools including Microsoft SQL Server 2008, jQuery, Bootstrap, Entity Framework Code First, LINQ-to-SQL, Transact SQL, and Team Foundation Server to build and manage web applications efficiently.
- ✓ As a dedicated resource for QNet Ltd. Philippines, I take charge of making and implementing programming decisions for .Net projects based on client requests. Additionally, work on existing programs that need changes and develop the necessary modifications.

Web Developer II

July 2013 to July 2014

Data Soft Logic Corporation | Davao City, Philippines
Industry: Healthcare (Software-as-a-Service)

- ✓ Utilizing programming languages such as **ASP.NET MVC in C#** along with Native JavaScript and jQuery, I leverage tools including SQL Server 2008, Visual Studio 2010, LINQ-to-SQL, Entity Framework, and TortoiseSVN as an in-house web developer.

Computer Programmer

January 2012 to April 2013

DC Invest Incorporated | Davao City, Philippines
Industry: Retail / Merchandise

- ✓ Programming Languages & Tools: Window Forms with Visual Basic, SQL Server 2005, Crystal Report.

EDUCATION

Bachelor of Science in Computer Science

STI College
Cagayan de Oro City
4-year college degree; Graduated in 2012

Vocational Degree in Computer Studies

STI Education Center
Malaybalay City, Bukidnon
2-year vocational degree; Graduated in 2008
